

COUNTER BALANCED DOUBLE-HUNG WINDOWS

THEMALLY IMPROVED SUITE - INLINE FRAME

Double hung windows introduce unparalleled recirculation of air, through simultaneous operation of top and bottom panels. Warm air moves through the upper opening, whilst cooler air travels largely through the lower.

Sashes are key lockable in the closed position. Locks & sash-pulls are available in either black or satin chrome

The flyscreen fits neatly & securely onto the outer face of the window

All glass is installed into dual vinyl sided rebates, ensuring vibration free glazing. A co-extruded santroprene inner seal resists shrinkage & also assists with weatherproofing

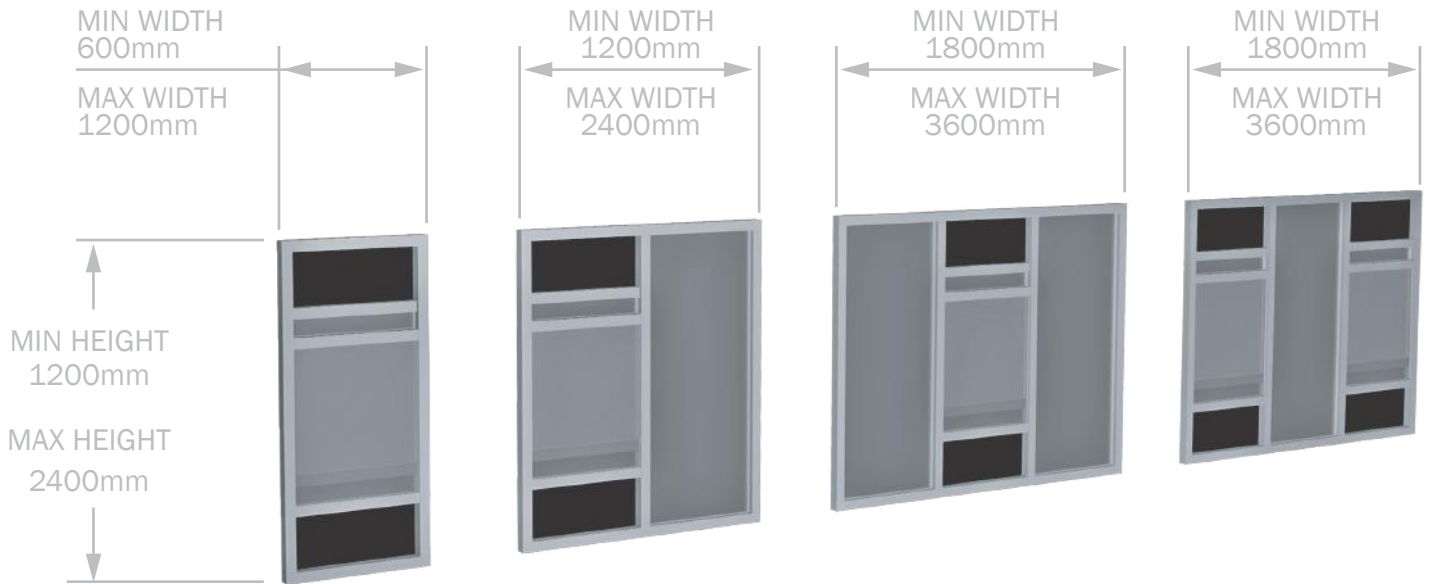

Mitred corners enhance the product's clean appearance. All fixings are made from durable stainless steel

The timber reveal sits inline with the frame's outer face

COUNTER BALANCED DOUBLE-HUNG WINDOWS

THERMALLY IMPROVED SUITE - INLINE FRAME

NOTE: ALL SIZES ARE TYPICAL RATHER THAN DEFINITIVE. FOR SIZES OUTSIDE OF THESE (incl. raked windows) PLEASE DISCUSS WITH YOUR VALLEY WINDOWS CONSULTANT

Sizing

Window style & opening detail should be considered as viewed externally

Sizes indicated are the overall window size. Reveal is inline with outer frame dimension.

For Stud openings add 20mm to both height & width

Glazing

Glazing strength to minimum N3 rating as per AS4055 - 2006

Maximum double glazed panel thickness is 18mm

Certification

Certified performance data including WERS ratings are available for this product on request

Specify

Frame colour, configuration, height, width & overall depth

Optional: flyscreen, glass type
